Education

MSc Computational Journalism – Cardiff University

Completed in October 2015 with graduation expected in July 2016. The course focuses around: computer science, data journalism, web application development, visual communication and journalism on digital platforms.

Bachelor in Communication (Journalism) – Université du Québec à Montréal (UQAM)

Graduated in April 2014. The course focused around: writing, radio, video and ethics, with a specialization in political science. Won the Bronze medal in press writing at the Communication games helping the university win its 13 title in 18 years.

Career

Freelance Interactive/Data Journalist – Huffington Post Quebec, Montreal, Canada

CURRENT

Collaborating on data/interactive journalism content with the Huffington Post. Analyzing public transportation data, building interactive maps and web applications.

Interactive Desk Intern – Financial Times, London, United Kingdom

05.2015

Spent two weeks with the Financial Times interactive desk in London, where I worked on an interactive story on racial disparities between police workforces and communities in the United Kingdom.
